

## **Jolanta Malyszko**

I am a full Professor (2002) and from 2013 a chairman of 2<sup>nd</sup> Department on Nephrology, Medical University, Bialystok, Poland. My clinical training were performed in the ICU and Nephrology Department, CHU Rouen, France, Nephrology Dept, Heinrich-Heine University, Dusseldorf, Germany (ERA-EDTA clinical scholarship), McKennon Hospital, Sioux Falls, South Dakota, USA (invasive cardiology), Kings'College of London, UK and Sourasky Hospital, Israel. During Japanese Ministry of Education scholarship at Hamamatsu University School of Medicine I defended my PhD thesis on role of FK 506 in transplantation in 1995. I established PD programme and Hypertension Outpatient Unit at the University and served for many years as a nephrology consultant at the University Teaching Hospital. My major research are is iron metabolism and anemia, cardiovascular complications in kidney diseases. I do collaborate in the clinical and research field with cardiology and invasive cardiology departments, vascular and transplantation surgery at the University, and outside University and Poland.

I am fellow in internal medicine, nephrology, transplantation, hypertension and diabetology as well as European Specialist in Clinical Hypertension. I was granted with title of a fellow of ASN (FASN) and of ERA-EDTA (FERA). I am a member of the Executive Council of ERA-EDTA (3rd female in the history of ERA-EDTA) and Polish Society of Nephrology.

I am author and co-author of over 400 original papers, over 100 review papers and 30 book chapters, including chapters in French, chapter in 4<sup>th</sup> Oxford textbook of Clinical Nephrology, IF almost 500, over 3500 citations, h-index-29. My hobby is visiting interesting places all over the world with my husband-nephrologist and 3 sons.
